Task Placemat: Two Groups of Students Template.

What are the characteristics of students in:

- 1. The "good" at math group;
- 2. The "poor at math" group; and,
- 3. Common amongst many in both of these groups.

@mathletepearce _____

closed mindset they don't get discouraged they need more time they try, try and try again they give up easily same brain they might have a more they feel like the are failures positive experience with they do the same work math they might think there's in the same class, they have the only one way to get the they wonder same teacher solution they notice more, pays more attention to details they rarely ask questions they got discouraged Poor at Math Good at Math
