## 1- Hero's Journey Assignment

Choose a lesson you will try this week in your class. How can you modify it so that it follows the hero's journey curve? Use the picture below to
place key elements of your lesson along the curve.
ow much does Domino's charge per topping?
What is the price of a 5 topping pizza? Which
is the best value, ordering a "Deluxe" or ordering the toppings individually?

## What do you notice? What

 do you wonder?What does a cheese pizza cost?
Next, show the price of a medium
2 -topping and medium 4-topping pizza

Start class with a Dominos Pizza menu

I need three medium pizzas and I have $\$ 50$. Go! (Spend as much as you an without going over Dominos Pizza menu \$50.)

## Time

What potential problems can you foresee?
I probably would not show them the actual menu. There are always a lot of deals and it would muddy the water initially. Of course, this could be a nice segue into tax and tip.
